

Lobby

The first world when you join will likely be the lobby. All other servers and worlds on Malloc are accessible through the gates around the lobby.

Newbie Island

The first time someone joins a server, they'll appear at Newbie Island. Players who haven't linked their discord and minecraft accounts will find themselves unable to leave the island, or visit much else of the server. Once you've linked your accounts, you'll be able to use the portal to transport to the main island.
